Breg's Attacks upon Washington, Jef-ferson, and Jefferson Davis, &c.

the Editor of the Dispatch :

As to the Puritans, the extract given in the "defence" has no effect in negativing the charge against Greg's book that, though merciless in denunciation of the faults of the Puritans, it never "admits their high virtues, their dauntless faith, their resolution in the face of horrors more appalling than death itself." The extract only shows that Greg admits what was too well known to be denied—viz. that the Puritans had orderly habits, family discipline, and a fondness for books and literature.

family discipline, and a fondness for books and literature.

Thus we reach the remarkable fact that this "defence," by its failure to deny and to negative by proof the specific charges made against Greg's book, confesses their truth. It has no denial that Greg charges the Virginia colonists with "high-handed petulance signally contrasted with the patience and moderation of King Charles I." as to the matter of Sir John Harvey; no denial as to Greg's unfounded and inexcusable charge that the Quakers were treated in New England" with a sanguinary crueity far exceeding what has a pullered in England": no denial of Greg's baseless statement that the colonies of Pennsylvania and Rhode Island "were founded in anarchy," nor as to his libel that "North Carolina was peopled chieffy by refugees from law, justice and order in the more settled provinces," nor as to his statements concerning the almost universal prevalence of Tory opinion and sentiment early in the Revolution, nor as to that deplorable chapter in Greg's book headed "The Mormons," nor as to the statements made therein.

Neither does this defence set forth any proof or evidence that Greg has inserted in his book any of the flagrant facts which connect England with the African slave-trade; any of the facts as to Sir John Hawkins and Queen Elizabeth; any statement as to the shameful assiente clause in the Treaty of Utrecht; any statement of the persistent measures by which England forced African slavery on the southern colonies; any statement of the prostest, remonstrances, and resolves of the colonies of Virginia, the Carolinas, and Georgia against the African slave-trade and importations; any statement of the repeated selfish refusals of England to grant these requests for relief. These facis constitute the true vindication of the South. And in view of them, the brief but able address of Leigh Robinson, delivered at the Howitzer unveiling, is worth more as a vindication of the South than all of Percy Greg's book, in its parts and in its total.

hefore Greg's book was written.—Bancroft VI.
Greg's calumny against the chivalrous and freedom-loving Lafayette, who
covered humself with honor by his campaign in Virginia in 1781, is in the following words: His "extreme youth as yet
excused or veiled the intellectual and
moral weakness, the inordinate and unserupulous vanity, the wantalike of true
principle and steadfast purpose which
rendered him throughout a long and
eventful life useless to his country, dangerous to his party, and fatal to all who
reposed the slightest trust in him."—
L. 212.

As to Thomas Jefferson democracy and the founder of the University of Virginia, Gree's calumnes and ibessare so numerous and offensive that it gives no pleasure to repeat them. He charges that Jefferson was of the Anarchist and Nihilist type rather than Radical; that he approved of the worst atrocities of the French Revolution, and "was delighted by the cruel and wanton murdar of" the King (L. 280). Also, that Jefferson was "blinded by his own vanity" and open to the charge of "incredible ignorance and stupidity" (284) and of "engrained vulgarity" (299). And Gree not only accuses Jefferson Davis of "prejudice against General Johnston" (200, note), but makes the unjust and baseless charge that this prejudice caused his removal of Johnston at Atlanta, instead of assigning the true reason, which was the importunity of persons (chiefly civilians) in Georgia. He charges President Davis with the same form of prejudice against General Beauregard. No name in our land—South or North—has been too high to escape the calumnies and libels of Percy Greg's book.

PENTIGREW AND FOREIST.

The article of Captain Cussons is written in a spirit and manner which entitle him to full respect and recognition as a courteous and gentlemanly scholar with whom it is a pleasure to conduct a discussion. Yet his article is unavalling as a defence of Greg's book. As to Pettigrew's division at Gettysburg it is sufficient to refer to the definite testimony found in the letters of Generals D. H. Manry and B. D. Fry (Southern Historical Papers, VII. 91-93), which fully indicate that gallant division. As to Forrest's men at Fort Pillow, Greg's charge is definite that "they were infuriated and uncontrollable," that "they gave no quarter to men who hardly deserved it," and that "a great majority of the garrison were killed when they had ceased to resist." These charges are distinctively negatived by the statements of Major Charles W. Anderson, Baltimore Sua, March 14, 1890. The attempts of Captain Cussons to defend or excuse Greg's geographical blunders are much more amusing than successful. It was beyond not only Hooker's power, but all human power to "cross the Rapidan about eighteen miles from Fredericksburg." The nearest point of the Rapidan to Fredericksburg is the point of its entrance into the Rappahannock on the borders or Culpaper county, about forty-two miles from Fredericksburg. But these are all small matters. The fatal defect of the defence of Captain Cussons is that he neither has or can have an adequate defence or excuse for Percy Greg's book as to its calumnies and libels—its suppræssions of truth as to the course of England concerning African slavery and as to that hideous chapter on "The Mormous."

nt article has been published in the giving a "poem" by Percy les Appomator surrender, April at the strange truth is that you?

Why suffer with asthms when the famous Dr. Buil's Cough Syrup will cure you?

Percy Greg's so-called "history" written in 1886 neutralizes and stuitifies his so-called "poem." In his poem he wax's into a "fine frouzy" of indignation against England for not intervening to save the Confederate cause. But nothing of this indignation against England appears in his history. KNOWN AS "THE REAPER'S HOME." An Institution to Accept and Care for Homeless Children.

(Correspondence of the Richmon 1 Dispatch.)

CREWE. VA., January 7.—Situated a few miles from this place is an institution locally known as "The Reaper's Home." I do not know that its name implies anything special in meaning, but its objects are indeed commendable. This home was first organized in lowa by Mr. V. A. Drake, a philanthropist, who has since died. Before his death, however, he was enabled to establish this home at Paris, Ill., but it was afterwards deemed best to move out of a city. After a careful scarch for a suitable locality it was decided to bring the home to this county and permanently establish it on a large farm, a portion of which was donated for the purpose by its former owner, Mrs. Emma E. Clarke. The object of the institution is to accept and care for any homeless child that may be sent to it. DOUBLE THE NUMBER,

DOUBLE THE NUMBER.

The inmates now number about fifteen of each sex, and the promoters of the scheme are fast preparing more accommodations and will soon be ready to receive double this number. It is safe to state that any child entered at this home will have its physical, mental, and spiritual interest well guarded. The home cannot be called denominational. Any child will be taken that is homeless and that displays evidence of a sound mind and body. Since her husband's death the business interests of the institution have been governed by Mrs. Drake, assisted principally by Mr. and Mrs. Thomas Nalson, all of whom are devoting their entire time and energy to this work.

Records Hidden in the Cave.

(Page Courier.)

To but few at this date who examine the records in the Clerk's office of this county is it known why the pages of all the books there up to the beginning of the war, are discolored by water. At the breaking out of the war Mr. Watson, who was then Clerk removed all the books to a cave on the farm of William R. Almond, near Hope Mills, for safe-keeping. They remained there till the close of the war, when they were moved back to the office in the courthouse. When taken out of the cave the box in which they were packed was foating in water. Their removal was a wise precaution, as the court-house was occupied for two or three years, first by soldiers of one army and then by the other. The few records left in the Clerk's office were taken by Mr. Watson to his house and preserved. These embraced the books for the recordation of the very small court business transacted in war times.

The court-house itself was badly disfigured and defaced on account of such occupancy.

Please inform me if it is necessary to have a will recorded either before or after death. By answering the above query you will greatly oblige an old subscriber.

C. V. B.

A will cannot be recorded in the lifetime of the testator for the obvious rea-son that it is not operative at all until after death. A paper duly executed as a ast will and testament may be revoked at any time by the maker in his lifetime, and is frequently revoked by his acts-e. g., by

subsequent marriage.

After death a will should be admitted to probate and recorded in the proper court for the purposes of notice to the world and for preservation, and in order that letters testamentary may be granted thereon.

All disorders of the Throat and Lungs is Ayer's Cherry Per It has no equal as a cough-cure.

Bronchitis "When I was a boy, I had a bronchial trouble of such a persistent and stub-born character, that the doctor pronounced it incurable with ordinary remedies, but recommended me to try Ayer's Cherry Pectoral. I did so, and one bottle cured me. For the last fifteen years, I have used this preparation with good effect whenever I take a had cold, and I know of numbers of people who keep it in the house all the time, not considering lit safe to be without it."-

Cough

"For more than twenty-five years, I was a sufferer from lung trouble, attended with coughing so severe at times as to cause hemorrhage, the paroxysms frequently lasting three or four hours. I was induced to try Ayer's Cherry Pectoral, and after taking four bottles, was thoroughly cured." - Franz Hoffman, Clay Centre, Kans.

La Crippe

"Last spring I was taken down with Is grippe. At times I was completely prostrated, and so difficult was my breathing that my breast seemed as if confined in an iron cage. I procured a bottle of Ayer's Cherry Pectoral, and no sooner had I began taking it than relief followed. I could not believe that the effect would be so rapid and the cure so complete."—W. H.
